

## HAPPY THANKSGIVING FROM ALL OF US AT ROBOTIC PARKING SYSTEMS INC.

For those of you who celebrate this holiday, I send you our best wishes for a happy and yummy Thanksgiving!

2020 has so far been an odd and trying year. I realize that this is a difficult time for many families; however, I think it's still important to stop for a moment and think about things for which we are grateful. One

of those things for us is our staff. I am thankful that all of our staff and their immediate families are currently healthy. I hope the same is true for yours.

Have a fun, safe and happy holiday!

“ *We are thankful that all of our staff and their immediate families are currently healthy.* ”

## REFERENCE:

### ASHRAF WAHBA

*"... they performed in an outstanding manner"*

Ashraf Wahba recommends Robotic Parking Systems: "I have first-hand experience working with Robotic Parking System Clearwater, FL as they performed in an outstanding manner executing the design and construction of 2,300 automatic car park in Kuwait. Great company in every aspect, professional with great attention to safety and quality; and I highly recommend them for any automatic car parking."

## PARKING FACTS:

- The average car is parked 95 percent of the time.
- There are an estimated 660 million parking spots in parking lots in the U.S.
- Up to 68 percent of the land in cities is taken up by parking spaces. That's a whole lot of parking!
- The average car wastes up to 17 hours a year driving around a parking lot looking for a spot.
